

IATF 16949:2016 Transition Auditor

Learn how the new IATF 16949:2016 standard differs from ISO/TS 16949:2009 and what the implications will be for 1st and 2nd party auditors.

The course will:

- provide an understanding of the terminology and structure of IATF 16949:2016
- identify any change in approach necessary to undertake an internal or supplier audit against IATF 16949:2016
- provide an understanding of the alignment requirements with ISO 9001:2015
- explore new features in IATF 16949:2016 that are not in ISO 9001:2015, such as corporate responsibilities, enhanced requirements for the control of externally provided processes, and the inclusion of controls for embedded software

Upon completion of the course, delegates will have the knowledge and skills to identify where and how change in quality management systems is needed to adapt to the new standard.

COURSE DURATION

2 days

CPD

Equivalent to 12 hours

COURSE PRICE

From £3295 + VAT (1 to 10 delegates)

All delegates will receive a certificate on completion.

In-company training

Ideal for groups, you can receive this course exclusively for your organisation at your premises or online in our user-friendly Virtual Classroom.

Enjoy cost-effective flexibility and personalised learning with tailored messaging designed to address your unique business challenges.

Who should attend?

This course is suitable for:

- existing internal and external auditors who need to audit against IATF 16949:2016
- those involved in the internal audit programme or leading internal audit teams, who will be responsible for implementing the changes
- quality managers, management system practitioners and/or process owners
- qualified auditors needing to upgrade their auditor status to the new standard

Key topics

Topics covered on the course include:

- differences between ISO/TS 16949:2009 and IATF 16949:2016
- continual improvement, defect prevention, and promoting the reduction of waste in the supply chain
- Annex SL, the new structure for management system standards
- context
- leadership
- risk
- timeline requirements for the transition from ISO/TS 16949:2009 to IATF 16949:2016

Skills gained

By the end of this IATF 16949 transition training course, delegates will be able to:

- assess the differences between ISO/TS 16949:2009 and IATF 16949:2016
- communicate to others what needs to change to meet the new requirements of the standard
- plan and prepare for revisions to existing management systems and implement the necessary changes

Delegates who finish the course will also receive a certificate of completion, which recognises their new knowledge of IATF 16949:2016

Course agenda

- Course Review

The tutor was very attentive and carried out the whole process very well and kept it interesting by giving his personal experiences where relevant.

Tata Steel UK Ltd

The ability of the tutor to talk about real-life examples to add to the content of the training was very good and added a lot of value to the training content.

Johnson Matthey Hydrogen Technologies Ltd

Clear concise format and good discussing with tutor. Easy to understand, very knowledgeable. 5 out of 5 for course materials – clear, concise.

Cramlington Precision Forge Ltd

The tutor delivered the course content very well and was extremely accommodating with regard to answering our additional questions/queries.

Oxford Technical Solutions Ltd
