

Integrated Management Systems Auditor

Learn how to carry out audits of an integrated management system to assess compliance with relevant standards, such as ISO 9001, ISO 14001 and ISO 45001, and identify potential for performance improvement, with our Integrated Management Systems (IMS) Auditor training course.

This 2-day course takes delegates through the integrated audit process, from the development of the audit schedule through to its follow up and closeout. Interactive workshops and case studies encourage discussion around the benefits and practicalities of auditing an IMS.

Students will leave the course with the skills and confidence to undertake audits of integrated management systems.

COURSE DURATION

2 days

CPD

Equivalent to 14 hours

COURSE PRICE

From £945 + VAT

CERTIFICATES

All delegates will receive a certificate on completion.

Who should attend?

This course is suitable for:

- those who have no previous experience in auditing but do have knowledge of the requirements of ISO 9001, ISO 14001 and ISO 45001
- existing quality, environmental or health & safety management systems auditors who wish to broaden their capability into the other disciplines
- those involved in the development and implementation of an integrated management system (IMS)
- anyone who is required to identify gaps in the effectiveness of their IMS

To benefit fully from this course, delegates are expected to have knowledge of the requirements of ISO 9001, ISO 14001 and ISO 45001. This knowledge can be gained from our 1-day Integrated Management Systems Overview course, which runs the day before this course.

Key topics

Topics covered on the course include:

- assessing environmental aspects, H&S hazards and risks
- legal framework for auditors
- the audit process, including
 - audit planning
 - preparing IMS audit checklists
 - non-conformity writing and closing meetings
 - reviewing corrective action
- techniques and improvement approaches for auditing integrated management systems
- auditor skills and knowledge

Skills gained

On completion of this Integrated Management Systems Auditor training course, delegates will be able to:

- understand the risks and benefits of integrated management system auditing
- plan for and perform an integrated management system audit
- identify the effectiveness of the management system under audit
- provide an overview of aspects, hazards and risks and understand the legal framework of quality, environmental and health & safety requirements
- apply and develop the necessary skills to undertake integrated audits covering various management system standards

A certificate of completion will be received by delegates who finish the course, in recognition of their new understanding and skills in IMS auditing.

Course agenda >
