CERTIFICATES

All delegates will receive an ISEP certificate on completion.

Who should attend?

This course is suitable for managers and team leaders who are charged with improving the environmental sustainability of their workplace, and anyone that would like to gain knowledge of sustainability, an understanding of the frameworks and tools for implementation and the opportunities sustainability offers to businesses.

If you are looking for a good understanding of environmental issues for the broader workforce you may prefer our 1-day ISEP Environmental Sustainability Skills for the Workforce training course.

This course incorporates the ISEP Environmental Sustainability Skills for the Workforce training on the first day, so those who have already attended this course only need to complete 1 additional day.

Key topics

Topics covered on the course include:

- risks and opportunities from environmental sustainability
- laws and other compliance obligations
- key environmental sustainability issues
- improving environmental sustainability performance
- drivers for change and barriers
- using data for performance improvement, such as carbon for net zero goals
- environmental sustainability across the value chain
- improving resource efficiency, through tools such as the circular economy
- employees and sustainability performance
- tools to understand the sustainability topics that are most important to your stakeholders

Skills gained

This certified ISEP Environmental Sustainability Skills for Managers course will enable delegates to:

- understand key environmental, social and economic risks and opportunities associated with sustainability
- gain knowledge of the rules and regulations surrounding compliance obligations
- use data for environmental performance improvement
- implement strategies in their organisations which can make a positive change to environmental sustainability
- understand the potential impacts their organisation could have on the environment
- write a clear concise plan to improve environmental performance within their organisation
- drive improvements in sustainability through influencing the people they work with
- provide insight into sustainability business frameworks and implementation tools.

All delegates will receive an ISEP certificate on completion.

The tutor was highly experienced and knowledgeable and seemed to know the course inside out, giving good and useful answers to all the questions that I had. Not only that but she made the training engaging and enjoyable.

Trant Engineering Ltd

The knowledge I gained on the course allowed me to become a lot more comfortable with my own ability and gave me the capability to better do my existing role.

Avara Foods Ltd

The way our tutor set out the week was very engaging, facilitating plenty of discussion. Her pace was great and her experience and knowledge was very inspiring. Mostly, her industry experience allowed her to help us to understand how we would apply course elements to our job.

Harbour Energy Services Ltd
