

ISEP Foundation Certificate in Sustainability and Environmental Management Course

Gain the vital skills and knowledge needed to make more informed decisions about environmental and sustainability initiatives by attending this ISEP Foundation Certificate course in environmental management.

This highly interactive 5-day course goes beyond traditional environmental compliance concepts to explore the bigger picture of environmental issues and how they present challenges to organisations worldwide.

The expert tutor will lead delegates through workshops and case studies to allow practice of the tools and skills they will learn that they can apply in the workplace.

Course assessment for the ISEP Foundation Certificate is through continuous assessment and a 1-hour open-book multiple-choice exam.

COURSE DURATION

5 days

CPD

Equivalent to 40 hours

CERTIFICATES

All delegates will receive an ISEP certificate on completion.

Who should attend?

This course is designed for anyone who holds responsibilities for environmental improvements within the workplace. This includes:

- those starting a career in environmental management
- anyone already part of an environmental scheme within their business
- anyone new to an environmental role and wanting to gain environmental and sustainability expertise
- individuals seeking to become an Associate Member of ISEP (AISEP)

Key topics

Topics covered on the course include:

- reasons to become more sustainable
- fundamentals of sustainability
- principles of sustainable business and corporate governance
- effective communication and collaboration
- environmental principles
- pollution and pollution control
- introduction to policy, regulation and legislation
- key UK environmental legislation
- environmental tools and assessment
- environmental management systems (including ISO 14001)
- environmental auditing
- impact assessment and other tools (EIA, SEA, life cycle assessment and foot printing)
- data and reporting (carbon accounting, sustainability reporting and measuring environmental performance)
- PESTLE framework
- improving sustainability performance
- ISEP codes of practice

Skills gained

By the end of this ISEP Foundation Certificate in Environmental Management training course delegates will be able to:

- support change and deliver direct improvements that contribute to their organisation's environmental goals, while saving money and building a strong reputation for their business
- understand sustainable business and governance principles
- collect, analyse and evaluate data
- research and plan to provide sustainable solutions
- engage with stakeholders
- support change and transformation to enhance sustainability
- utilise tools and techniques that identify opportunities and risks

Delegates will receive an ISEP certificate and become an ISEP Associate Member, securing access to an extensive library of practical tools, guidance notes and updates to allow continuous progression.

Course agenda

Our training courses are designed to optimise the learning experience for delegates both in face-to-face settings and in our Virtual Classroom.

Enjoy cost-effective flexibility and personalised learning with tailored messaging designed to address your unique business challenges. [Contact us for a quote.](#)

The course was a nice balance of material (slides) and break out group events which I believe aids the learning experience and gives a good insight into the views and experiences of the fellow delegates. The course tutor was very pleasant and extremely knowledgeable, and I would recommend Bywater to colleagues based on my experience.

Alstom Transport UK Ltd

The tutor had a great way of reading the room, she made sure everyone had a turn engaging, and she paused for questions at the right time, repeated the important stuff twice. Overall, very engaging and one of the best training courses I have been on.

Environment Agency

I was really pleasantly surprised at how practical and vocational the content of this course was. I feel it set me up with lots of tools I can apply to my work and organisation that are clear and accessible.
