

ISO 22000 Internal Auditor

Learn how to conduct internal audits of food safety management systems based on ISO 22000:2018 on this ISO 22000 Internal Auditor training course.

This 2-day course is key to ISO 22000 compliance for food safety management systems.

The aim of the course is to provide delegates with the knowledge and skills to perform an internal audit, report on the conformity and effective implementation of processes, and contribute to the continual improvement of the management system.

Through interactive teaching, group discussions, exercises and workshops, delegates will learn the practical aspects of undertaking an internal audit of an FSMS, from preparation to corrective actions and beyond.

COURSE DURATION

2 days

CPD

Equivalent to 14 hours

CERTIFICATES

All delegates will receive a certificate on completion.

Who should attend?

The course is suitable for:

- those who need to perform or are involved with internal audits in line with ISO 22000:2018
- those responsible for implementing and maintaining an ISO 22000 based management system
- those wishing to gain awareness of the audit process
- those wishing to learn how to identify hazards, reduce risks and implement control measures within the food sector

For those who would benefit from a grounding in the benefits and requirements of ISO 22000, our [Understanding ISO 22000 training course](#) provides interactive, practical training led by an expert instructor.

If you are unsure whether you have sufficient ISO 22000 knowledge to get maximum benefit from this course, you can test your understanding with our [ISO 22000 Quiz](#).

We offer a discount of £100 if booking the Understanding course alongside the Internal Auditor courses. Please [contact us](#) for more information.

Key topics

Topics covered on the course include:

- the importance of an effective food safety management system (FSMS)
- the role of a FSMS internal auditor
- how to undertake an internal audit including audit planning, audit preparation, checklists, audit techniques, audit interviewing, non-conformance, reporting, corrective actions and closing meetings
- identifying hazards and risks within a FSMS

- Operational Prerequisite Program (oPRP), CCP (Critical Control Point) and PRP (prerequisite programme)
- ISO 19011:2018 Guidelines of auditing management
- the relationship between ISO 22000 and other ISO standards including ISO 9001
- Annex SL – overview and implications
- HLS: The same core elements
- ISO 22000:2018 approach and the PDCA model
- continuous improvement of the FSMS
- ISO 22000 certification process

Skills gained

By the end of this ISO 22000 Internal Auditor training course, delegates will understand the principles of internal FSMS auditing and be able to:

- plan, conduct, report and follow up an internal audit as part of a food safety management system based on ISO 22000
- identify hazards and recommend control measures
- suggest corrective actions and provide recommendations for continual improvement of the FSMS

Course agenda

Enjoy cost-effective flexibility and personalised learning with tailored messaging designed to address your unique business challenges. Contact us for a quote.

Delegates who attend and complete all elements of the course will receive a certificate in recognition of their new knowledge and skills in internal FSMS auditing.

The ease of understanding and ability to explain the content from the tutor was great and really made the learning experience and approach to the subjects much easier.

Capita

Tremendous knowledge and practical experience from the tutor, easy to follow and made me feel at ease.

Department for Environment, Food and Rural Affairs

The tutor was extremely knowledgeable in the subject and presented in a very engaging way, promoting interaction and fostering a really good learning environment for all. Genuinely one of the best instructors I have ever had in any subject.
