ISO 42001 Internal Auditor

Develop the skills needed to carry out audits of artificial intelligence management systems (AIMS) on this ISO 42001 Internal Auditor training course.

Learn how to demonstrate that your organisation is maintaining good AI practices on this 2-day course for internal auditors.

The course is built around a highly interactive case study and workshops that will give delegates practical experience of the key stages in an AIMS audit.

As a result of attending this course, delegates will be able to prepare, conduct, report and follow up an AIMS internal audit against ISO 42001:2023.

COURSE DURATION
2 days

CPD
Equivalent to 14 hours

COURSE PRICE
From £995 + VAT

CERTIFICATES
All delegates will receive a certificate on completion.

Course details ❯

Who should attend?

The ISO 42001 Internal Auditor training course is suitable for anyone managing or carrying out an internal audit, or who would like to know more about AIMS audits to help them perform their roles.

They include:

- those who are or will be performing internal AIMS audits and need the requisite skills
- those who will be audited and want to understand how the internal audit process works
- quality managers taking on AIMS responsibilities
- compliance managers and other professionals involved in management systems where artificial intelligence has or could have an impact

For potential delegates who are unsure whether they have sufficient prior knowledge of ISO 42001 to fully benefit from this course, we offer a 1-day Introduction to ISO 42001 training course.

Key topics

Topics covered on the course include:

- introduction to auditing an AIMS based on ISO 42001
- relationship between ISO 42001 and the rest of the ISO 42001 family
- auditing process, including:
  - preparation – document review, audit plan, audit checklist
  - performance – interviews, demonstrations, records
  - reporting – audit report and nonconformity writing

- follow up – correction, cause analysis and corrective action
  - factors determining audit frequency
- risk assessment and risk management
- continual improvement of the AIMS
- business ethics surrounding artificial intelligence
- legal and other compliances surrounding artificial intelligence

Skills gained

On completion of this ISO 42001 Internal Auditor training course delegates will have the knowledge to:

- explain the roles, procedures and documentation within an AIMS internal audit
- plan, prepare and conduct an effective internal AIMS audit against ISO 42001
- present audit findings and advise on potential corrective actions
- identify opportunities for continuing AIMS improvement

Delegates will also receive a certificate of completion to signify their new knowledge and skills in ISO 42001 internal auditing.

Course agenda >

Course agenda

Our training courses are designed to optimise the learning experience for delegates both in face-to-face settings and in our Virtual Classroom.

> Content was well designed, and the tutor also gave a good guidance on how to perform audits. It also gave a perspective on how to analyse the requirements and controls from the standard. I would say both the content and tutor was very good.

Atsec Information Security Ab

> The tutor delivered a highly detailed and interesting course tailored to people of all levels of understanding and did so in a very professional manner.

National Security Inspectorate (NSI)

> The tutor was extremely proficient, and aimed the content at the level of the class. Utilising real time experience and situations to enhance the learning.

Royal Air Force

> Tutor was extremely good and made it very easy to understand the course content.
