

ISO 45001 Auditor Migration

CQI and IRCA certified ISO 45001:2018 Auditor Migration training course for existing OHSAS 18001 auditors looking to transition to ISO 45001.

ISO 45001 replaced OHSAS 18001 as the new management systems standard aimed at enabling organisations to better manage their Occupational Health & Safety (OH&S) risks and to improve their OH&S performance.

This two day ISO 45001 Auditor Migration training course is designed to teach delegates about the structure of ISO 45001 (which is based on the Annex SL framework for new ISO management systems standards), the requirements of ISO 45001 and what the implications are for OH&S management system auditing.

This training course is CQI and IRCA certified and will satisfy CQI and IRCA's mandatory training requirements for individuals needing to retain their IRCA OHSMS Registration. All IRCA OHSAS Auditors will have only 3 years in which to successfully complete a CQI and IRCA Certified ISO 45001 Auditor Migration course. Please note that prior knowledge of OHSAS 18001:2007 is essential.

Who should attend?

- Existing OHSAS 18001 auditors who require the knowledge and skills to audit against ISO 45001:2018
- Those responsible for transitioning their Occupational Health & Safety Management System from OHSAS 18001 to ISO 45001 who wish to understand the changes and their implications

Delegates are recommended to have an in-depth knowledge of OHSAS 18001:2007.

Skills gained

Upon successful completion of this 2 day ISO 45001 Migration training course, delegates will be able to:

- Understand the purpose and structure of Annex SL, the framework that ISO 45001 and future ISO standards will be based upon
- Interpret the new and revised terms and definitions within ISO 45001
- Understand the key differences in requirements between ISO 45001 and OHSAS 18001, including what this means for the organisations (and their management systems) and for auditors.
- Evaluate audit evidence to correctly identify conformity, with emphasis on
- Context of the organisation
- Internal & external issues
- Relevant interested parties
- Leadership and top management involvement
- Actions to address risks & opportunities
- Operational planning and control
- Retain/upgrade their IRCA OHSMS Registration (if applicable)

Key topics

Topics covered on the course include:

- Background to the changes from OHSAS 18001 to ISO 45001
- Context of the organisation
- Annex SL and a framework for generic management systems
- Leadership and top management's more direct involvement in the OH&S management system
- Risks and opportunities and the concept of Risk-Based Thinking
- Audit planning and how this might change to address ISO 45001:2018 requirements.
- Auditing against the new aspects and requirements of ISO 45001
- Evaluating audit evidence to correctly identify conformity (or non-conformity) with the requirements of ISO 45001

Delegates will receive a CQI & IRCA ISO 45001:2018 Auditor Migration certificate.

The tutor clearly had the course material at his fingertips and could explain in an engaging and straightforward manner. He made the course interesting and useful. Excellent.

The University Of Sheffield

The tutor has demonstrated a great professionalism and ability to interact with the delegates as well as he adapted successfully to each individual's background and the level of H&S knowledge and remained supportive throughout the course.

McGee Group Limited

I personally thought the Tutor was exceptional, his subject knowledge was impressive and his ability to impart his knowledge was really impressive.
