

ISO 45001 Implementation

Learn about ISO 45001 and how to implement the standard for occupational health & safety (OH&S) management systems in your organisation with this ISO 45001 Implementation course.

This 2-day course offers an introduction to the standard on the first day, including consideration of the relationship between ISO 45001 and other standards, and the assessment of OH&S risks.

On day 2 students will explore how to implement ISO 45001, including a gap analysis, an analysis of a common ISO 45001 implementation plan, and the requirements for reviewing and maintaining a successful OH&S management system.

COURSE DURATION

2 days

CPD

Equivalent to 14 hours

COURSE PRICE

CERTIFICATES

All delegates will receive a certificate on completion

Who should attend?

This course is suitable for those:

- required to implement an ISO 45001 OH&S management system
- involved in managing, maintaining, and continually improving an existing OH&S management system
- considering ISO 45001 certification but are unsure where to start

This course includes the IOSH approved Introduction to ISO 45001:2018 training course so no prior knowledge is required.

Key topics

Topics covered on the course include:

- overview of ISO 45001 and Annex SL
- plan-do-check-act cycle (PDCA)
- context of the organisation
- issues and interested parties
- scope of the management system
- OH&S management system and its processes
- context and leadership
- support and operation
- performance evaluation
- documented systems
- gap analysis
- creating a Gantt chart
- safety culture
- planning
- process risks and opportunities
- OH&S policy and objectives
- determining competency
- implementation considerations

- performance evaluation and improvement
- continual improvement
- implementation and certification

Skills gained

On successful completion of this ISO 45001 Implementation training course delegates will understand:

- the scope and key clauses of ISO 45001
- benefits of implementing ISO 45001
- OH&S risks and legislative compliance
- the process for planning and implementing an ISO 45001 OH&S management system
- how to undertake a gap analysis and a baseline review
- the route to certification

Delegates will also receive an ISO 45001 Implementation course certificate.

Course agenda

Our training courses are designed to optimise the learning experience for delegates both in face-to-face settings and in our Virtual Classroom.

The tutor was very engaging, he spoke about the content with authority and could talk around the topic with ease. The course was well paced.

Johnson Matthey

I've completed many HSE courses in my time, including Nebosh, and Keith was by far the best tutor I have had. He kept us all engaged throughout.

Handicare Accessibility UK

The tutor was well equipped and extremely knowledgeable, which provided the course content with additional support from real life examples. The tutor was also approachable and friendly, conversation was easy which I found made a huge impact to the training experience.
