CERTIFICATES

All delegates will receive a certificate on completion.

Who should attend?

The course has been designed to appeal to those who are new to the concept of ISO 14001 as well as staff who want to improve their EMS knowledge. They may be:

- needing to understand ISO 14001 as part of their job role
- preparing to attend our ISO 14001 Internal Auditor* or Lead Auditor course
- ready to extend their existing auditor skills to audit against ISO 14001
- considering implementing ISO 14001 within the organisation
- responsible for the effectiveness of an EMS
- ISEP members looking at their continued professional development

*If you are specifically interested in training for the EMS internal auditor role, you may find our [Internal Environmental Management System \(EMS\) Auditor](#) training course suitable. It brings together this 1-day course and our 2-day Internal Auditor training course into one combined 3-day package.

Key topics

Topics covered on the course include:

- background to environmental management systems (EMS)
- EMS and related standards
- overview of ISO 14001
- context, scoping and life cycle
- people – responsibilities, competence and communication
- environmental risks and opportunities
- environmental legislation
- identification and assessment of environmental aspects and impacts
- using an EMS for improvement
- monitoring, auditing and corrective action
- documented information

Skills gained

On completion of this ISEP approved Introduction to ISO 14001 training course, delegates will:

- have a thorough understanding of the purpose, structure and requirements of ISO 14001:2015
- understand the importance of implementing ISO 14001 within their organisation
- appreciate their organisation's obligations in terms of ISO 14001 requirements and environmental legislation
- be able to assess the environmental impact of their organisation's activities, products and services
- be ready to contribute to the improvement of the EMS

A certificate of completion will be awarded to delegates who attend the whole course, in recognition of their knowledge and understanding of ISO 14001:2015.

I wasn't sure how much I would learn in a single day, but it was a really informative course and had direct implications in my day-to-day job which I can now apply. The tutor was really knowledgeable, and I enjoyed his teaching style and the pace.

Mott MacDonald Ltd

The tutor was absolutely amazing. Fantastic energy and knowledge which was readily shared and improved the course content. If there was an issue, the tutor would offer her time to support our understanding. She was excellent.

Carbon Trust

The course content included current industry trends, emerging technologies, and case studies that are directly applicable to my job, making the training immediately useful.
